## WHO is eligible for Apple Health?

- Any U.S. citizen or eligible resident who earns less than 138 percent of the Federal Poverty Level (FPL) (approximately \$16,000 for one person adjusted annually for inflation) is eligible for Apple Health/Medicaid and can enroll anytime.
- Individuals/families who earn between 138–400 percent of the FPL maybe eligible for tax credits to pay for their health insurance during open enrollment periods each year through the Health Benefit Exchange.

More information is available at

**Washington Healthplanfinder**, an online marketplace ([www.wahealthplanfinder.org](http://www.wahealthplanfinder.org)). Please call or go online for annual open enrollment dates.

## WHY should I apply?

- All insurance plans on the Washington Healthplanfinder must cover 10 essential health benefits such as doctor visits, hospitalizations, maternity care, emergency room care, prescriptions and others.
- Insurance plans cannot deny health coverage if someone is sick or has a pre-existing condition.
- You and every family member who does not have health insurance may have to pay a penalty when you file taxes if you don't have minimum essential coverage and don't qualify for an exemption.
- If you need to see your Neighborcare Health or other provider, you may not have to pay out-of-pocket for the services received.

## WHEN does coverage start?

- **If you are eligible for Apple Health/Medicaid, you can sign up anytime during the year.** Apple Health coverage begins the month of enrollment and runs for 12 months.
- Enrollment for Qualified Health Plans for individuals and families above 138 percent FPL through the Washington Healthplanfinder occurs annually between November and January; check annually for exact dates.
