neighborcare.org

Welcome!

Neighborcare Health at Roosevelt High School is a full service health clinic that provides medical and mental health services for students of Roosevelt High School.

Funding for the Health Center is partially supported by the Families and Education Levy and the City of Seattle. Neighborcare Health staff members partner with the school nurse at the Health Center to provide high quality coordinated care to students.

Where?

Neighborcare Health at Roosevelt High School is located on the second floor in the northeast corner of the school, **room 255**.

Why?

Our goal is to **help students do better in school** by working with them to **solve medical, dental and mental health concerns**. Our care team focuses on **promoting healthy lifestyles and preventing serious illness**.

Our Health Center is part of **Neighborcare Health**, a network of medical, dental, and school-based clinics, serving more than 70,000 patients in Seattle and Vashon Island each year. Neighborcare Health is committed to creating a health care home, that includes medical, dental and mental health care, and encourages long-term relationships between patients and providers.

When?

Neighborcare Health at Roosevelt High School provides services to all students on weekdays before, during and after school hours. **To schedule an appointment, please call 206-527-8336 or stop by the office.** The Health

Center is closed during school holidays and summer break.

When Neighborcare Health at Roosevelt High School is closed, students and their families are encouraged to call a Neighborcare Health clinic for medical, dental and mental health services. The closest clinic to Roosevelt is **Neighborcare Health at 45th Street**, 206-633-3350.

Students and their families are also welcome at any of our Seattle clinic locations (see back cover).

At Neighborcare Health, we believe that everyone deserves a health care home, regardless of income or insurance status. A health care home is where a team of medical, dental and mental health professionals works in collaboration with each patient to develop a personal health improvement plan. It's a place where we encourage long-term relationships with patients and care for them from birth through end of life. No matter which Neighborcare Health clinic patients visit, we want them to feel at home.

What services are offered to students?

Medical and mental health services offered at Roosevelt include:

- Evaluation and treatment of common health problems
- Sports physicals
- Preventive health care
- Reproductive health
- Vaccinations
- Individual, family and group mental health counseling
- Family coordination to establish health care home
- Insurance eligibility and enrollment assistance
- Crisis intervention
- Community and school-based referrals
- Health promotion and health education

Dental services

Any student who is registered as a patient at the Health Center can access Neighborcare Health dental services at any of our dental clinics throughout Seattle (see back cover).

The closest dental clinic to the school is **Neighborcare Health at 45th Street**. Call 206-633-3350 to schedule a dental appointment for your child.

How can students use the center?

Register! Students must register with **Neighborcare Health at Roosevelt High School** in order to receive care. A complete registration form and consent with parent or guardian signature is all that is needed to access all of the services offered. **Students 18 years old and over can sign registration forms themselves. Under Washington state law, students under 18 can register themselves for confidential care, including reproductive health services and mental health counseling.**

Request to Report slips are given for appointments during school. We will do everything possible to schedule or reschedule so students miss as little class as possible. Students may also visit the clinic without an appointment by getting a pass from their teacher or a referral from the school nurse.

To access the Health Center's registration packet online, visit neighborcare.org.

What is the cost?

Our intention is to reduce as many barriers as possible to accessing medical and mental health services. **No student will be denied services due to inability to pay.** Because the Families and Education Levy covers only a portion of the costs to operate the Health Center, we bill insurance companies when possible.

We have Eligibility Specialists who work in all of our sites to assist families and students to enroll in health insurance programs. We accept a wide variety of health insurance plans, including Washington Apple Health (Medicaid) and bill them directly for services. Lab services for non-confidential services are billed to the student's health insurance by LabCorp.

If you have questions about services, please call the Health Center at 206-527-8336.

If you have questions about billing, please contact our billing department at 206-548-3100.

Meet our staff

We are delighted to be part of the Roosevelt community. Please stop by and say hello!

Marissa Bruno
Health Center Coordinator

Auky Van Beek, PA-C

Eligibility Specialist

What we do

Each person in our clinic plays an important role in delivering comprehensive care to our patients.

The **Health Center Coordinator** manages the Health Center and helps students and families access the school-based health services.

The **Physician Assistant** is a licensed medical provider who provides comprehensive primary medical care services.

The **Mental Health Therapist** is a licensed clinician who provides individual, family and group mental health counseling.

The **Health Educator** provides reproductive and sexual health education and resources to students and families.

The **Eligibility Specialist** assists families in signing up for health insurance that meets their family's health care needs.

neighborcare health

Neighborcare Health is the largest provider of primary medical and dental care in Seattle for low-income and uninsured families and individuals, serving our community for nearly 50 years.
