VASHON ISLAND
SCHOOL DISTRICT

Equipping every student to engage, thrive, and contribute in an ever-changing world.

2017-2018 School Year

Dear Parents/Guardians:

Did you know that your son or daughter can get **Health Care** at school? Vashon Island High School has a School-based Health Center (SBHC) that is located in the building and its services are available to all McMurray Middle School students. The SBHC is operated by Neighborcare Health, a community health center serving more than 70,000 people in Seattle and Vashon Island each year.

The SBHC offers a child friendly setting and all the services of a family doctor. The SBHC provides appointments before, during, and after school and offers the following services:

- Evaluation and treatment of common health problems
- Immunizations, lab tests, and medication management
- Sports physicals
- Reproductive health care
- Mental, social, and emotional health care (*offered onsite at Vashon Island High and Chautauqua Elementary schools*)
- Oral health care, including screening, exams, and treatment (*offered onsite at Vashon Island High, McMurray Middle, and Chautauqua Elementary schools*)
- Preventive health care, including tobacco, alcohol, and other drug use prevention education
- Health insurance eligibility and enrollment assistance
- Referrals to other health care providers as needed

To use this service, please complete and sign the following forms in this packet:

- ☐ Health History Form (pg. 2)
- ☐ Registration Form (pg. 3)
- ☐ Consent Form (pg. 4)
- ☐ Dental Screening Consent Form (pg. 5)

Forms can be returned with the school packet or mailed to the school separately. They can also be dropped off in person at the SBHC or the school's main office.

Neighborcare Health is committed to serving all patients regardless of ability to pay. The Vashon Island High School SBHC receives support from the Best Starts for Kids Levy, but this funding does not fully cover the program's operating costs; therefore the SBHC bills insurance when appropriate. Please complete the insurance section of the registration form to ensure that we have your most current insurance information on file.

If you do not have health insurance, the SBHC can help you enroll in an insurance plan. Please check the "No Insurance" box on the registration form and a SBHC staff member will follow-up with you. You can also call the SBHC directly to request health insurance enrollment assistance.

McMurray Middle School is fortunate to have access to the SBHC and I hope you will take advantage of this resource for your child. If you would like more information or need assistance please call the Vashon Island High School SBHC at 206-548-7550.

Sincerely,
Greg Allison
Principal

Neighborcare Health's School-based Health Centers are located in Seattle Public Schools. Neighborcare Health must have signed consent from a parent or legal guardian before providing services to the student, except in situations where federal and/or state laws allow the student to access such treatment without parent/guardian consent. If the student is enrolled in school but is not enrolled in a School-based Health Center (SBHC), he/she can continue to receive school nurse services.

I hereby request and authorize that:

Print Student's Name: _____ ___/___/____
First Name Middle Initial Last Name Date of Birth

receive health care services available from and deemed necessary by the Neighborcare Health SBHC staff. These services may include, but are not limited to: mental health counseling, routine medical exams, naturopathy, sports physicals, well-child or teen care, evaluation and treatment of acute illness and injuries, immunizations, blood studies, photographs, X-rays, dental and fluoride treatment services. SBHC staff encourage family involvement in the care they provide to students. However, if I am unable to be present, authorization is given for my child to receive services in my absence. Consent is also given for referral of care and, if needed, emergency transportation to other physicians, health care professionals, hospitals, clinics, or health care agencies as deemed necessary by the Neighborcare Health SBHC staff. This authorization does not allow services to be rendered without the student's consent, unless she/he is unable to consent. Neighborcare Health is committed to creating a health care home and encouraging long-term relationships between patients and providers that includes medical, dental and mental health care. Neighborcare Health collaborates with other providers in the community that may also be seeing the patients we serve to ensure care is coordinated.

In accordance with state and/or federal law, when consent is provided for care, healthcare information is kept confidential. A few exceptions exist. For example:
1. Permission is given by the patient or parent/guardian through a signed release of information form.
2. The patient indicates risk of imminent harm to self or others.
3. The patient has a life-threatening health problem and is under the age of 18.
4. There is reason to suspect abuse or neglect.
5. Certain communicable diseases must be reported to public health authorities.

Consent is given to share necessary information with the health care providers at the SBHC, including exchange of information between the mental health therapist, nurse practitioner or physicians assistant and the school nurse, for the purpose of providing the best care for the above named student. To facilitate coordination of care, the student's SBHC medical record will be accessible to Neighborcare Health staff at the SBHC. Consent is granted for the school nurse to administer over-the-counter medications (for example, Ibuprofen, Tylenol, Tums, etc.) as prescribed by the medical provider of the SBHC.

Students may also receive health services independently at any of Neighborcare Health's medical or dental clinics. With this consent, services can be received at any of the following other Neighborcare Health medical and dental clinics:

IMPORTANT ADDITIONAL INFORMATION ON MINOR CONSENT

Under Washington State law, the SBHC will provide and assist students in accessing outside care if necessary. Under Washington State law, youth may independently access reproductive health care at any age without parent/guardian consent. Youth (age 13 and older) may independently receive drug and alcohol services and mental health counseling without parent/guardian consent. The SBHC encourages each student to involve his/her parents or guardians in health care decisions whenever possible. When applicable, the SBHC will assist the student in discussing these situations with parents/guardians.

Because youth are able to provide consent for treatment, their consent is legally required for release of information about pregnancy and sexually transmitted diseases (including HIV/AIDS testing). Consent from students age 13 and older, and parent/guardian consent for students age 12 and younger, is legally required for release of information about alcohol and drug or mental health counseling.
