

neighborcare  health™
at HIGHLAND PARK ELEMENTARY

Welcome!

Neighborcare Health at Highland Park Elementary is a health clinic that provides medical, dental and mental health services for students of Highland Park Elementary. Funding for the Health Center is partially supported by the Families and Education Levy. Neighborcare Health staff members partner with the school nurse at the Health Center to provide high quality coordinated care to students.

Where?

Neighborcare Health at Highland Park Elementary is located in the **back hallway of the main office area.**

Why?

Our goal is to **help students do better in school** by working with them to **solve medical, dental and mental health concerns.** Our care team focuses on **promoting healthy lifestyles and preventing serious illness.**

Our Health Center is part of **Neighborcare Health**, a network of medical, dental, and school-based clinics, serving more than 70,000 patients in Seattle and Vashon Island each year. Neighborcare Health is committed to creating a health care home, that includes medical, dental and mental health care, and encourages long-term relationships between patients and providers.

When?

Neighborcare Health at Highland Park Elementary provides services to all students several days a week before, during and after school hours. **To schedule an appointment for your child, please call 206-455-9025.** The

Health Center is closed during school holidays and summer break.

When Neighborcare Health at Highland Park Elementary is closed, students and their families are encouraged to call a Neighborcare Health clinic for medical, dental and mental health services. The closest clinic to Highland Park is **Neighborcare Health at High Point**, 206-461-6950.

Students and their families are also welcome at any of our Seattle clinic locations (see back cover).

At Neighborcare Health, we believe that everyone deserves a health care home, regardless of income or insurance status. A health care home is where a team of medical, dental and mental health professionals works in collaboration with each patient to develop a personal health improvement plan. It's a place where we encourage long-term relationships with patients and care for them from birth through end of life. No matter which Neighborcare Health clinic patients visit, we want them to feel at home.

What services are offered to students?

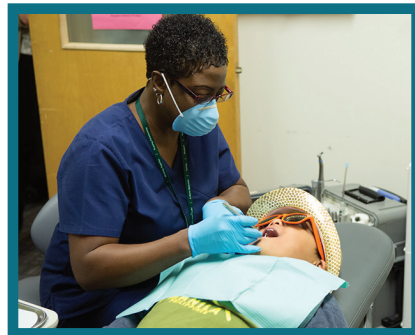

Medical and mental health services offered at Highland Park Elementary include:

- Evaluation and treatment of common health problems
- Well-child check-ups and physicals
- Preventive health care
- Vaccinations
- Individual, family and group mental health counseling
- Family coordination to establish health care home
- Insurance eligibility and enrollment assistance
- Crisis intervention
- Community and school-based referrals
- Health promotion and health education

Neighborcare Health at Highland Park Elementary also provides dental care in the Health Center to any student registered as a patient. All procedures are performed by one of our licensed dentists and dental assistants using portable equipment to provide high quality, convenient care at school.

Dental services include:

- Oral exams
- Cleanings
- X-rays
- Sealants
- Fluoride Treatment
- Fillings
- Some extractions

Any procedure that cannot be completed at school can be scheduled at one of our Neighborcare Health dental clinics located throughout Seattle (see back panel).

How can students use the center?

Register! Students must register with **Neighborcare Health at Highland Park Elementary** in order to receive care. A complete registration form and consent with parent or guardian signature is all that is needed to access all of the services offered. Families may call or visit Neighborcare Health at Highland Park Elementary if they would like their child to be seen.

Request to Report slips are given for appointments during school. We will do everything possible to schedule or reschedule so students miss as little class as possible. Students may also visit the clinic without an appointment by getting a pass from their teacher or a referral from the school nurse.

To access the Health Center's registration packet online, visit neighborcare.org.

What is the cost?

Our intention is to reduce as many barriers as possible to accessing medical, dental and mental health services. **No student will be denied services due to inability to pay.** Because the Families and Education Levy covers only a portion of the costs to operate the Health Center, we bill insurance companies when possible.

We have Eligibility Specialists who work in all of our sites to assist families and students to enroll in health insurance programs. We accept a wide variety of health insurance plans, including Washington Apple Health (Medicaid) and bill them directly for services. Lab services for non-confidential services are billed to the student's health insurance by LabCorp.

If you have questions about services, please call the Health Center at 206-455-9025.

If you have questions about billing, please contact our billing department at 206-548-3100.

Meet our staff

We are delighted to be part of the Highland Park community. Please stop by and say hello!

Juan Espinoza
Health Center Coordinator

Aneta Kucharczyk-Swamy, ARNP
Nurse Practitioner

Ana Short, LMHC
Mental Health Therapist

Tanvi Kacheria, DDS
Dentist

Rachel Aho, CDA
Dental Assistant

Jose Galeon, CDA
Dental Assistant

What we do

Each person in our clinic plays an important role in delivering comprehensive care to our patients.

The **Health Center Coordinator** manages the Health Center and helps students and families access the school-based health services.

The **Nurse Practitioner** is a licensed medical provider who provides comprehensive primary medical care services.

The **Mental Health Therapist** is a licensed clinician who provides individual, family and group mental health counseling.

The **Dentist** is a licensed dental provider who provides comprehensive dental care through oral health exams, cleanings, and treatment using portable dental equipment.

The **Dental Assistant** prepares patients for dental treatment and supports the dentist during the dental exam and treatment.

neighborcare health

Neighborcare Health is the largest provider of primary medical and dental care in Seattle for low-income and uninsured families and individuals, serving our community for 50 years.
