Your student's health is an important part of their academic success. In order to support that success of your student, there is a school-based health center (SBHC), operated by Neighborcare Health, on site available to all students for both in-person and telehealth visits. The SBHC offers all the services of a family doctor and can provide appointments before, during and after school. Even if your student already has a care provider, we can work closely with them, providing a convenient option for medical, dental, and mental health services at school. Neighborcare Health is committed to serving all patients regardless of ability to pay. We hope you take advantage of this resource and look forward to seeing you at school.

IMPORTANT ADDITIONAL INFORMATION ON MINOR CONSENT

Under Washington State law, the SBHC will provide and assist students in accessing outside care if necessary. Under Washington State law, youth may independently access reproductive health care at any age without parent/guardian consent. Youth (age 13 and older) may independently receive drug and alcohol services and mental health counseling without parent/guardian consent. The SBHC encourages students to involve their parents or guardians in health care decisions whenever possible. When applicable, the SBHC will assist the student in discussing these situations with parents/guardians.

Because youth are able to provide consent for treatment, their consent is legally required for release of information about pregnancy and sexually transmitted diseases (including HIV/AIDS testing). Consent from students age 13 and older, and parent/guardian consent for students age 12 and younger, is legally required for release of information about alcohol and drug or mental health counseling. For more information on minor consent visit: www.washingtonlawhelp.org and search "Minor Consent."
